dhavalhk3091@gmail.com

Summary

As a front end developer, my primary responsibility is to create user-friendly websites that provide a wonderful user experience. I have a skill in HTML, CSS and JavaScript, and I can create responsive designs that look great on all devices. I have skill to use various front-end libraries and frameworks such as jQuery, Bootstrap and React js to create dynamic user interfaces and responsive designs.

In addition, I have excellent problem-solving skills and can troubleshoot technical issues quickly. I have a passion for learning new technologies and staying up-to-date with the latest trends in web development.

Overall, I am a highly skilled front-end developer with a passion for creating visually stunning and functional websites that engage and delight users.
